3. WSFR Division Reports

Operations: Chief Jaques shared updates with the UCH contract. The deployment is working well. The goal is to receive the contract from legal within the next week or two so that we can move forward. Still working with Kevin from UCH to move the agreement along.

The land may also include room for admin to grow. 2 acres is needed specifically for the training tower, but 5 acres will allow for additional buildings and training props.

At the next board meeting, Chief Angermuller will request the board to adjust the strategic plan from a 3-year plan to a 5-year plan.

New credit card system is in place and is working smoothly. The system is called Spend Clarity through Vectra Bank.

Work is being done to move from Emergency Reporting to First Due. Scheduling through Aladtec will also migrate to First Due. Asset and Fleet Management will be in First Due, creating a single-use platform for all needs.

Construction has started at Station 1. Construction will occur in 4 different phases. Unfortunately, costs have increased since the initial bids were made.
